POT POWER  
II

# مقدمة Preface

This catalogue contains an assortment of high quality planters, carefully selected to cater to a wide variety of applications. Variation comes from differences in size, shape, material, finish and colour.

The diversity of the products depicted here can compliment an equally diverse range of settings, from modern, through classic to rustic.

We have tried to give sufficient information on each product to ensure that our customers are well informed and equipped to make the ideal selection to suit their needs.

يحتوي هذا الدليل على تشكيلة من البلانترز عالية الجودة. تم اختيارها بعناية لتلبية الاحتياجات المتنوعة من التطبيقات. يتشكل هذا التنوع من الأحجام، الأشكال، المواد، النهايات والألوان المتنوعة.

إن التنوع في المنتجات الواردة هنا يمكن أن تكمل تشكيلة متنوعة متساوية في الإعدادات. من المنتجات الحديثة مرورًا بالكلاسيكية والريفية.

لقد حاولنا توفير المعلومات الكافية عن كل منتج لضمان حصول عملائنا على المعلومات والمعدات ليشكلوا الاختيار المثالي الذي يلبي احتياجاتهم.

# Fusion فيوجن

We are delighted to introduce our 'Fusion' range of plant pots, exclusive to Siji Greenhouse.

For these planters we have combined 2 to 3 different materials to create some stunning pieces.

All the planters within this range start with a synthetic, 100% waterproof base. Highly skilled artisans then, following our designs, painstakingly clad the base with the specified materials before a protective lacquer coat is applied.

To date the materials include; mother of pearl, abalone shell, metallic leaf, (of various colours) and painted designs.

The designs utilize the more expensive materials as highlights, providing accents whilst keeping the material costs down.

In addition we can discuss 'bespoke' items should they be requested, and according to technical limitations, advise what can be done. (In this case a minimum number of pieces would be required, and a cost implication given).

يسعدنا أن نقدم مجموعة "فيوجن" من اوعية الزراعة. حصرياً لدى سيجي جرين هاوس.

لقد قمنا بمزج عدد ٢ إلى ٣ مواد مختلفة في هذه البلانترز للحصول على قطع مذهلة.

جميع البلانترز ضمن هذه المجموعة تبدأ بتراكيب اصطناعية. قاعدة مقاومة للماء ١٠٠٪. تم صنعها بأيدي حرفيين مهرة وفقاً للتصاميم لدينا. حيث قاموا بجهود خارقة لتغطية القاعدة بالمواد المخصصة قبل وضع طبقة الورنيش الواقية.

وحتى تاريخه فإن المواد تشمل. الدرة الأم. صدفة أذن البحر. ورق معدني. (بألوان مختلفة) وتصاميم مطلية.

كما نستخدم التصاميم مواد أكثر كلفة للإبهار. وتوفير علامات جذابة وفي الوقت نفسه الإبقاء على انخفاض تكلفة المواد.

بالإضافة إلى ذلك يمكننا أن نناقش "بالتفصيل" المواد التي يمكن طلبها. وطبقاً للحدود التقنية. وتقديم المشورة لما يمكن القيام به. (في هذه الحالة فإنه يجب مراعاة العدد الأدنى للقطع المطلوبة. والتكلفة اللازمة).

# Fusion

## Exotic

This range of 'Highball' planters is a family of planters grouped together due to their shape. (with the exception of the 'Bowl'). There is diversity however in the finishing, which utilizes a number of exotic materials in various ways.

## المدھش

مجموعة "هايبول" هي عائلة من البلانترز تم جمعها مع بعضها البعض في مجموعة وفقًا لأشكالها. (باستثناء ذي "بول"). ويوجد هناك تنوع في التشطيبات. والتي تستخدم عدد من المواد الرائعة في طرق مختلفة.

# Fusion

Highball 'Highlight Abalone'

Highball 'Highlight MOP'

- Fully waterproof planter for indoor use
- Lacquered for additional protection
- Standard colours black and white
- Natural 'Mother of Pearl' or 'abalone' highlights
- Handcrafted
- Available with self-watering system

## Highball 'Highlight Abalone'

The abalone shells are sourced from Australia, from the commercial abalone industry. Only a small percentage of the shell is usable due to the curvature of the shell, so wastage is high. A small tessellated style is utilized to great effect by highlighting the top section of the planter as a uniform band. It is similar to the MOP, but the range of colours refracted and reflected are far more diverse and complex. A truly exotic look!

## Highball 'Highlight MOP'

The MOP Highball Highlight is in essence very similar to the highball highlight abalone, with a small tessellated band of shell accentuating the top of the planter. The MOP has a rich luster of depth and character resulting in an exotic luxurious plant pot.

Self-watering System

Highball 'Highlight MOP'

Highball 'Highlight Abalone'

07

Highball 'Champagne Black'

Highball 'Champagne White'

This planters name is self-explanatory. The wafer thin MOP rings, flush with the planter body appear to rise like bubbles up the sides of the planter. Standard colours are black & white. Both gives a classic, sophisticated planter with a unique style that can complement a wide variety of settings.

Bowl 'Champagne'

- Fully waterproof planter for indoor use
- Lacquered for additional protection
- Standard colours black and white
- Natural 'Mother of Pearl' highlights
- Handcrafted
- Available with self-watering system

### Bowl 'Champagne' Black/White

Highball 'Champagne Black'

Highball 'Champagne White'

Highball 'Sky'

- Handcrafted music score / sky design
- Genuine handcrafted MOP inlays
- Fully waterproof planter for indoor use
- Lacquered for additional protection
- Available with self-watering system

Highball 'Symphony'

### Highball 'Symphony'

Themed planters can add a touch of class to a setting. The symphony above (with MOP inlays), is a beautiful example with the grand piano! A natural elegance of topical interest with a musical theme. These also demonstrate the possibility of producing 'bespoke' items.

### Highball 'Sky'

A 'Stella' design with symbolic moon, stars & planets crafted from MOP.

### Highball 'Abalone' / 'MOP' / 'Symphony' / 'Sky'

# Fusion

Highball 'Picasso White'

Highball 'Picasso White/Black'

Highball 'Africa'

- Fully waterproof for indoor use
- Painted highlighting with protective lacquer coat

Highball 'Picasso Black'

## Highball 'Picasso'

The Picasso, so named due to the painting style, is another planter with the emphasis around the top edge as a highlight. This is a bright, colourful planter especially suited to modern settings.

Highball 'Africa'

Highball 'Tram-line Red Leaf'

Highball 'Tram-line Blue Leaf'

- Fully waterproof planter for indoor use
- Foil and MOP combined
- Lacquer coated for additional protection
- Available with self-watering system

### Highball 'Africa'

- Inspired from 'Tinga tinga' painting style of Tanzania, Highball 'Africa' is a bright and clean planter suited for both modern and traditional settings.

### Highball 'Tram-line'

The Tram-line planter is a combination of a metallic foil skin, (available in red or blue), which contrasts beautifully with the MOP highlights. The parallel lines of MOP, and the foil itself, both reflect light giving a stunning effect.

## Arabian Flavour

The planters here have an 'Arabian flavour' with influence from Persia and the surrounding regions. They give a rich cultural emphasis to the settings in which they are placed.

## آريبيان فلور

تمتاز البلانترز هنا بأن لها "نكهة عربية" مع مؤثرات فارسية والمناطق المحيطة. فهي تركز على الثقافة الغنية في الإعدادات التي يتم وضعها بها.

Highball 'Persia'  
High gloss white finish with painted geometric design

Highball 'Arabia'  
High gloss black finish with a painted geometric highlight

Highball 'Royal'  
Base cladding of metallic foil with intricate gold leaf highlighting

## Artisans at work !

Fine finishing follows a laborious sequence of preparatory work. Attention to detail is essential at all stages of production.

## Bespoke

Custom made planters highlighting various material combinations to create unique designs.

Utilizing any of the materials shown, MOP, abalone, paint, foil etc., much can be done to produce bespoke items in any of the standard planter shapes.

Please feel free to approach us with your ideas and we can discuss what can be done.

## بـسـكـوب

Highball Cracker

Highball 'Symphony'

## Donut Planter

The 'DONUT' Planter is named after the popular 'doughnut' (UK) or 'Donut' (US) - due to the similarity in shape.

The 'topping' of the planter is Acacia wood, creating the casual seating area, the rest of the planter is of durable 'fiber reinforced resin' construction - finished to a high gloss.

The central area is a 60cm diameter planter, ideal for a feature plant.

## دونات بلانتر

تم تسمية "دونات" بلانتر بهذا الاسم بعد الشعبية التي لاقاها "دوغنات" (المملكة المتحدة) أو "دونات" (الولايات المتحدة الأمريكية) - وذلك بسبب التشابه بالشكل.

الجزء العلوي من البلانتر مصنوع من خشب الأكاسيا. ليمنح مساحة عادية للجلوس. والجزء الباقي من البلانتر من الألياف القوية مدعومة بهيكل من الراتنج - وفي النهاية يتمتع باللمعان الرائع.

أما المنطقة الوسطية يكون قطر البلانتر ٦٠ سم. وهو مثالي للزراعة المستقبلية.

### Donut Planter

- Innovative combination of seating and planter
- Made out of high quality fiber reinforced resin
- Top portion is made of real Acacia wood (7.5 cm thickness)
- Comes with high quality synthetic inner planting pot
- Robust and strong
- High glossy finish for synthetic portion & semi matt finish for wood portion

# طبيعي Natural

The natural range of planters is highly diverse, using a variety of natural materials alone or in combination to create some stunning display pieces.

In most cases the basic form is molded in fiber reinforced resin, this is then used as a base onto which a natural 'cladding' is fixed.

Some of the materials impose design constraints with regard to scale, nevertheless many forms are possible and some within the range are works of art in their own right.

The use of natural materials results in subtle variations in colour, both within one planter and between planters, yet the overall appearance is of uniformity. This can be advantageous when matching planter colours to a setting.

Nature provides a diversity of materials that (after finishing) can complement both rustic and modern classic settings depending on the material and finish selection.

These planters exhibit a rich warmth adding a luxurious feel to their surroundings.

Both the weights (and rates) within the range vary widely according to the material used and the degree of artisan input.

تنوع مجموعة البلانترز الطبيعية بشكل كبير. باستخدام تشكيلة من المواد الطبيعية المختلفة سواء بمفردها أو مجتمعة لتكوين بعض قطع العرض المذهلة.

وفي معظم الحالات يكون النموذج الأساسي على شكل قالب من الراتنج معزز بالألياف. يستعمل بعدها كقاعدة تثبت عليه "المشغولات المعدنية" الطبيعية.

تفرض بعض المواد قيوداً على التصميم تتعلق بالقياسات. على الرغم من وجود إمكانية لتصميم العديد من النماذج وبعض من التشكيلة هي أعمال فنية بذاتها.

يؤدي استعمال المواد الطبيعية إلى اختلافات ملحوظة في اللون. كلاهما لدى بلانتر واحد أو بين بلانترز. ورغم ذلك فالمظهر العام يكون غير متسق. وقد يكون ذلك مفيداً عند الرغبة في مطابقة ألوان البلانتر مع الإعدادات.

توفر الطبيعية تنوع في المواد التي (بعد الاكتمال) يمكن أن تتمم الإعدادات الريفية الكلاسيكية والحديثة وفقاً للمواد والقسم المكتمل.

توفر هذه البلانترز الدفء الوافر الذي يضيف إحساساً أنيقاً للبيئة المحيطة.

تختلف كل من الوزن و (النسب) ضمن التشكيلة بشكل متفاوت طبقاً للمادة المستخدمة ودرجة خبرة الحرفي.

# Natural

## Mother of Pearl

The stunning 'mother of pearl' range, have a synthetic base onto which a cladding of natural 'mother of pearl' is applied.

First the shells need to be graded for quality and colour segregated, then each piece is cut for its specific location to ensure even joint widths.

Each piece is hand polished before fitting and the finished product is then lacquered for added protection.

These planters have a thick 'clad' rim, strengthening the top edge and giving a strong solid product both physically and visually. Due to the mother of pearl cladding, these planters are quite heavy.

All planters in this range are fully waterproofed.

## الصدف

مجموعة "الصدف" المذهلة، يوجد لها قاعدة اصطناعية لكي يُثبت عليها غلاف "الصدف" الطبيعي.

أولاً يجب فرز الصدف تبعاً للجودة واللون. ثم تقطع كل قطعة طبقاً للمكان الذي ستوضع فيها لضمان الحصول على وصلات متساوية في العرض.

يتم صقل كل قطعة يدوياً قبل التركيب ثم يُطلى المنتج النهائي للمزيد من الحماية.

هذه البلانترز لها حافة سميكة "مغطاة" لتعزيز الحافة العلوية والحصول على منتج صلب وقوي في جسمه ومظهره. ونظراً لغلاف الصدف، فإن وزن البلانترز ثقيل جداً.

إن جميع البلانترز في هذه المجموعة مقاومة للماء تماماً.

## Aurora Range

The Aurora range (predominantly table top planting pots) combines both natural Mother of Pearl and Abalone shells.

Meticulously crafted by artisans they conjure images of the 'Aurora Borealis' or Northern Lights' as light plays over the shell surfaces.

## مجموعة أورورا

مجموعة أورورا (هي في الغالب الأواني الزراعية التي توضع على الطاولة) وجمع بين الأم الطبيعة من اللؤلؤ وأصداف أذن البحر.

تمت صنعها بشكل دقيق من قبل الحرفيين حيث يستحضرون صور "أورورا يورياليس" أو "الأضواء الشمالية" حيث تلعب الإضاءة فوق سطح الصدف السطوح.

## Metallic Leaf

These planters start as a molded synthetic base and are then clad with a mosaic of overlapping metal foil, giving a subtle tessellated surface with a metallic sheen.

Once covered, the whole exterior is lacquered providing protection and a transparent 'glaze'.

Standard colours for most are gold and silver, but the Ali Baba comes in gold, silver, red, green, wine and blue as standard. (Others in the range can also be produced with blue and red leaf with sufficient lead in time.)

## ورق الميتاليك

تبدأ هذه البلانترز بتشكيل قاعدة اصطناعية ثم تُكسى بالموزاييك المكون من تداخل أوراق الألمنيوم المعدنية، لتعطي سطحًا موزايكيًا خفيف مع لمعان معدني.

وعند الانتهاء من تغطيتها، يتم طلاء الجزء الخارجي لإعطاء الحماية والشفافية "المصقولة".

الألوان القياسية لمعظمها هي الذهبي والفضي، وبشكل أساسي يكون لون علي بابا هو اللون الذهبي، الفضي، الأحمر والأزرق. (أما باقي المجموعة فيمكن أيضًا إنتاجها بالورق الأزرق والأحمر مع إعطاء وقت كاف).

## Exotic Natural

This range of planters comes with a number of different cladding materials on synthetic bases providing great diversity in appearance. Eggshell, branch sections, natural 'rope' (twisted banana leaf), wood strips, bamboo, wooden tiles and 'cured' leaves are used to stunning effect.

Some are lacquered giving a high gloss finish whilst others are given a protective coat that allows the beauty of the material itself to dominate.

These planters are dramatic works of art in their own right and with the subtle earth tones blend superbly in a multitude of settings.

## الطبيعي المدهش

تأتي هذه التشكيلة من البلانترز مع عدد من مواد التغطية المتنوعة على قواعد اصطناعية لتوفر تنوعاً رائعاً في المظاهر. ويستخدم قشور البيض، أقسام الفروع، "الحبل" الطبيعي (ورق الموز المجذول)، شرائح الخشب، الخيزران، البلاط الخشبي والأوراق "المعالجة" للحصول على التأثير المذهل.

يُطلّى البعض منها لإعطاء لمعان عالٍ في حين يتم إعطاء البعض الآخر غلاف واقٍ يسمح بهيمنة جمال المادة نفسها.

البلانترز هذه هي عبارة عن أعمال فنية دراماتيكية بحد ذاتها مع نغمات أرضية دقيقة تمتزج بشكل رائع في العديد من الإعدادات.

## Antique Bronze

A new finish!

The realistic 'bronze' appearance coming from genuine metallic 'dust' incorporated to the finishing layer. when 'buffed', the polished metal is highlighted on raised areas giving a distinguished look of 'weathered bronze'. This finishing technique provides great opportunity to create beautiful '3D' textured relief designs of distinct character

## أنتيك برونز

لمسة جديدة!

مظهر خارجي واقعي من "البرونز" يأتي من "غبار" معدن أصلي مدمج في طبقة التشطيب. عندما يتم "صقله"، يتم تسليط الضوء على المعدن المصقول في المناطق المرتفعة ليمنح مظهرًا مميزًا "للبرونز المصقول". توفر تقنية التشطيب هذه فرصة رائعة لتوفير تصميمات رائعة ثلاثية الأبعاد ذات طابع مميز

## Polystone

The 'Polystone' range of planters have a rustic textured finished of natural limestone. The feel and appearance is of stone, yet the planters are lightweight.

Some come with a 'honed' flat surface, others with a 'carved' or 'chiseled' finish.

Standard colours are 'natural' (off white/beige) or black (with the exception of the teardrop and chiseled planters which also come in brown).

The polystone planters are suitable for both indoor and outdoor applications. All come fully waterproof. For exterior applications drainage holes can be supplied on request.

These earth-tone planters can complement many naturally adorned settings where stone flooring, walls, columns and highlights have been used, and they also blended well with wooden features.

## بوليستون

تشكيلة البلانترز من "البوليستون" لها نهاية من القوام الريفي للحجر الجيري الطبيعي. فالملمس والمظهر هما من الحجر ومع ذلك فإن البلانترز خفيفة الوزن.

بعض من هذه البلانترز يأتي بسطح مستو "مستون". والبعض الآخر مع نهاية "منحنية" أو "محفورة".

الألوان القياسية هي "الطبيعية" (أبيض فاخ/بيج) أو أسود (باستثناء البلانترز الدامعة والمنقوشة والتي تأتي أيضًا باللون البني).

بلانترز البوليستون تناسب كلا الاستعمالات الداخلية والخارجية. حيث تأتي جميعها عازلة للماء. أما بالنسبة للتطبيقات الخارجية يتم توفير فتحات لتصرف المياه عند الطلب.

ويمكن لهذه البلانترز المتناغمة مع الأرض أن تكمل العديد من الإعدادات المزينة بشكل طبيعي حيث يستخدم الحجر للأرضيات، الجدران، الأعمدة مع الإضاءة، كما أنها تمتزج بشكل رائع مع الميزات الخشبية.

## Polystone 'Ocean'

We are happy to introduce our new 'Polystone Ocean' range of planters.

This exclusive range (of 5 basic designs), is suitable for both indoor and outdoor applications, and adds a new dimension of 'scale' to our brochure - with diameters of to 1.2m and heights to 1.6m.

The main body is a light beige 'polystone' with a band of 'natural shell' hand cut and fitted in a mosaic pattern, as a defining 'ornamental edge'.

For their size, these are very light in weight compared to concrete or ceramic based products.

These planters all come with integral drainage holes, and are compatible with our 'self- watering' systems, if required.

## بوليستون "أوشين"

يسعدنا أن نقدم تشكيلتنا الجديدة من بلانترز "بوليستون أوشين".

تضم هذه التشكيلة الحصرية (5 تصاميم أساسية)، تناسب الاستعمالات الخارجية والداخلية. وهي تضيف قياساً جديداً إلى "جدول" الكتيب لدينا - مع أقطار 1,2 متر وارتفاع 1,6 متر.

ولون الجسم الرئيسي لـ "بوليستون" هو البيج الفاخ مع مجموعة من قطع "الأصداف الطبيعية" التي يتم تركيبها في تصميم الموزايك لتحديد "حواف الزينة".

بالنسبة لحجمها، فوزنها خفيف جداً مقارنة بالمنتجات المصنوعة بأساس من الاسمنت أو السيراميك.

تأتي هذه البلانترز بفتحات لتصريف المياه وهي تناسب مع أنظمة "الري- الذاتية" لدينا. عند اللزوم.

# التراكيب الاصطناعية Synthetic

The synthetic planter range is highly diverse.

The shape, size and colour variations provide the most options of any of the ranges.

They are all lightweight for their size, strong and utilitarian, they also, size for size, would be classified as the most practical choice when budget is an issue.

All planters in this range are waterproof.

تمتاز مجموعة تراكيب البلانترز الاصطناعية بتنوع كبير.

إن الاختلافات بالشكل، الحجم واللون توفر أكثر الخيارات في أي من المجموعات.

إنها جميعاً خفيفة الوزن بالنسبة لحجمها، قوية ونفعية، كما تصنف بالنسبة لأحجامها بأنها الاختيار العملي الأكثر عندما يتعلق الأمر بالميزانية.

جميع البلانترز في هذه المجموعة عازلة للماء.

# Synthetic

## Classic Synthetic

The 'Classic Synthetic' range of planters include a wide variety of ergonomic shapes and sizes.

Represented in this section are the planters that have over time proved to be the most popular.

Made of fiber reinforced resin, these planters have a number of common characteristics. They are: lightweight, waterproof and robust, suitable for both interior and exterior applications. All are finished in a uniform high gloss 'coloured' coat.

Standard colours for the majority are: black, white and brown although any RAL colour is available for a small premium.

This range provides an economic solution for a wide range of applications.

## التراكيب الكلاسيكية الاصطناعية

تشمل مجموعة "التراكيب الكلاسيكية الاصطناعية" أنواعًا عديدة من الأشكال والأحجام المريحة.

أثبتت البلاتنرز الممتلئة في هذا القسم وعلى مر الزمن أنها الأكثر شعبية.

تمتاز هذه البلاتنرز المصنوعة من الراتنج المعزز بالألياف بعدد من الخصائص المألوفة. فهي خفيفة الوزن. عازلة للماء وقوية. تناسب الاستعمالات الخارجية والداخلية. نهاياتها موحدة بلمعان عالٍ "ملونة" مكسوة ومطلية.

الألوان القياسية بالنسبة للغالبية هي: الأسود، الأبيض والبني على الرغم من أن أي لون RAL يتوفر بفارق قليل في السعر.

توفر هذه المجموعة حلاً اقتصاديًا لتشكيلة واسعة من الاستعمالات.

## Exclusive Synthetic

The 'Exclusive Synthetic' range of planters includes a variety of ergonomic shapes and sizes, generally cast in more complex forms than the classic range.

Like the classic range, these are predominantly made of fiber reinforced resin. They are: lightweight, waterproof and robust, most suited for both indoor and outdoor use unless otherwise noted. All have a high gloss finish.

## التراكيب الاصطناعية المصرية

تشمل تشكيلة البلانترز من "التراكيب الاصطناعية المصرية" على أشكال وأحجام متنوعة، وبالعوم فإن أشكالها أكثر تعقيداً من التشكيلة الكلاسيكية.

تماماً مثل التشكيلة الكلاسيكية، يتم صنعها من الراتنج المعزز بالألياف، وهي خفيفة الوزن، عازلة للماء وقوية، تناسب بشكل كبير الاستعمالات الداخلية والخارجية ما لم يلاحظ عكس ذلك، وجميعها تتمتع بنهاية من الطلاء كثير اللمعان.

## Selfie

### The 'Selfie' Range

The 'selfie' range, so named due to the integral 'self-watering' (semi hydroponic) system, are available as small to medium sized pots.

Water is poured into the 'filler tube spout' after which the 'red floating indicator' rises to 'Max' level. The plant then takes up the water from the reservoir via capillary action, and the 'red indicator' drops gradually to the 'min' level, indicating that additional water is required. There is no need to water until the indicator reaches the minimum level.

We recommend giving a liquid fertilizer with every alternate watering, following the manufactures instructions.

Available in 4 colours, and suitable for both indoor and outdoor use.

### مجموعة "سيلفي"

مجموعة "سيلفي". سميت هكذا بسبب نظام "الري الذاتي" نظام (شبيه بالزراعة المائية). وتتوفر بأواني صغيرة إلى متوسطة الحجم.

يتم سكب الماء في "حنفية محشوة في أنبوب" بعد ارتفاع "مؤشر أحمر عائِم" إلى الحد الأقصى. ثم يمتص النبات الماء من الخزان عبر عملية الامتصاص الشعري. ثم ينخفض "المؤشر الأحمر" تدريجياً إلى الحد الأدنى. مشيراً بذلك إلى الحاجة إلى مزيد من الماء. وليس هناك حاجة للمياه حتى يصل المؤشر إلى الحد الأدنى.

ومن جهتنا ننصح بإعطاء الأسمدة السائلة مع كل عملية سقي. ووفقاً لتعليمات الشركة المصنعة.

تتوفر في 4 ألوان. وتناسب الاستخدام الداخلي والخارجي.

# الميتاليك Metallic

The metallic range of planters is particularly popular in 'high traffic' public areas due to their strength and resistance to damage. With the preponderance of the use of stainless steel in many modern buildings, they are also a popular choice to complement this.

Design can be somewhat restricted by the material and the methods of manufacture, yet within the range some very stylish planters are available.

The hard, sharply defined shapes are very popular with variety coming from finished texture, polished or satin, wide size availability and lip treatments.

تشكيلة البلانترز المعدنية حظى بشعبية خاصة في المناطق العامة التي تكون فيها "حركة المرور عالية" نظرًا لقوتها ومقاومتها للتلف. مع كثرة الاستخدام للفولاذ المقاوم للصدأ في الكثير من المباني الحديثة، فإن لها شعبية عالية. في الاختيار لاستكمال هذا.

تتحكم المواد وطرق التصنيع إلى حد ما بالتصميم. ومع ذلك تتوفر ضمن التشكيلة بعض أنواع البلانترز الأنيقة جدًا.

إن الأشكال الثابتة والمحددة بشكل دقيق لها شعبية مع المجموعة المتنوعة المشكلة من القوام النهائي، المصقول أو الساتان. توافر الأحجام العريضة وعلاج الحواف.

# Metallic

## Stainless Steel

These planters are very robust. They have hard clean surfaces with crisp well-defined shapes and edges. Some have an exaggerated 'flattened top lip' accentuating the inherent strength and some a more subtle 'rolled lip' to give a neatly finished edge detail.

The top of the range is the 'Jigsaw' which is constructed by securing individual, randomly shaped tiles of stainless steel (set in black resin), over a synthetic base. This requires dedicated input from highly skilled artisans and results in a stunning finished product.

All these planters are lacquered for additional protection against scratches.

## الفولاذ المقاوم للصدأ

هذه البلاترز قوية للغاية وتمتاز بصلابتها ونظافة أسطحها ولها أشكال رائعة وحواف محددة. بعضها له حواف علوية مستوية مبالغ فيها تبرز القوة الكامنة وبعضها أكثر رقة "بحواف ملفوفة" لتظهر تفاصيل الحواف النهائية بشكل دقيق.

يقع في قمة المجموعة "منشار التخرم" التي يجري تثبيتها من خلال التقعير الفردي الآمن. فولاذ مقاوم للصدأ على شكل بلاط عشوائي. (في الراتنج الأسود). على قاعدة اصطناعية. وهذا يتطلب إدخال مخصص من قبل حرفيين يتمتعون بمهارات عالية ينتج عنه منتج مذهل تام الصنع.

جميع هذه البلاترز مطلية للمزيد من الحماية ضد الخدوش.

## Aluminium

The aluminium range is similar to the stainless steel range, but not as inherently robust.

Due to the softer nature of the material, it can be more easily formed to accept curves and can more easily be given the classic 'hammered' finish, which means a wider variety of designs are possible.

The aluminium planters are size for size lighter in weight than the stainless steel equivalent and come at a more economic rate.

Additional variation is available by adding a coloured 'powder coat' followed by a lacquered layer as a final protective skin.

## الألومنيوم

تشبه مجموعة الألومنيوم مجموعة الفولاذ المقاوم للصدأ. ولكنها ليست قوية بطبيعتها.

ونظراً للطبيعة اللينة للمواد، فإنه يمكن تشكيلها بطريقة أكثر سهولة لتقبل المنحنيات بشكل أسهل ولإعطائها النهاية الكلاسيكية "التشكيل" مما يعني إمكانية عمل مجموعة تصاميم متنوعة.

بلانترز الألومنيوم من حجم لحجم هي أخف وزناً مما يعادلها من الفولاذ المقاوم للصدأ وهي أكثر اقتصاداً في الأسعار.

هناك تباين إضافي متاح من خلال إضافة اللون "غلاف من المسحوق" يليه طبقة طلاء كمشرة حماية نهائية.

# Sports Range

***'LET'S GET THE BALL ROLLING'***

# المجموعة الرياضية

***'لندرج الكرة'***

We are happy to share our sports range...

So far the 'Football and Golf ball' have been released and we are delighted with the outcome!

The **Football** pot has 3 available sizes: 60cm diameter, 80cm diameter and a table top at 20cm diameter. This planter is suitable for both indoor and outdoor use, and can be supplied with integral branding if required (club logos, company logo's etc.). Standard colours are black and white as shown, but for volume requests, any colour combination can be done.

The **Golf ball** pot has 2 available sizes: 60cm diameter and 20cm for table top.

They can come with or without the 'Tee', and like the football, are suitable for both indoor and outdoor use. The standard colour is white, although any other colour is possible. (White ball, red 'Tee'; yellow ball, blue 'Tee' etc.). Both the 'Tee' and/or the ball itself can be branded according to clients wishes, for a small premium and minimum quantity.

Both planters are ideal 'canvasses' for celebrities to sign giving an exclusive twist to the display.

نحن سعداء للمشاركة بمجموعتنا الرياضية...

إلى الآن تم إطلاق "كرة القدم و كرة الغولف" ونحن في غاية السرور والسعادة بالنتيجة!

تتوفر ٣ أحجام لوعاء كرة القدم: قطر ٦٠ سم، ٨٠ سم وأعلى الطاولة بقطر ٢٠ سم. هذا البلانتر مناسب للاستعمال الداخلي والخارجي. ويمكن توفيره بعلامات تجارية عند اللزوم (شعارات الأندية، شعار الشركة... إلخ). الألوان القياسية هي الأبيض والأسود كما هو موضح. وأما بالنسبة للطلبات بحجم معين، فيمكن عمل أي لون مُركب.

يتوفر هناك حجمان لوعاء كرة الغولف: قطر ٦٠ سم و ٢٠ سم أعلى الطاولة.

يمكن أن يكونا مع أو بدون "Tee". وكذلك مثل كرة القدم. وهما مناسبان للاستخدام الداخلي والخارجي على حد سواء. اللون القياسي هو الأبيض. على الرغم من إمكانية أن يكون بأي لون آخر. (الكرة البيضاء، الحمراء "Tee"، الكرة الصفراء، الزرقاء "Tee"... إلخ).

كل من "Tee" و/أو الكرة يمكن أن يكونا بعلامات طبقاً لرغبة العملاء. سواء للكميات الصغيرة أو لكميات الحد الأدنى.

كلا البلانترز يُعتبران "لوحات" مثاليان للمشاهير للتوقيع عليها معطياً تطوراً حصرياً للعرض.

Golf Ball 'Synthetic'

## Golf Ball 'Synthetic'

This high quality Synthetic planter, suitable for both indoor and outdoor applications, follows many months of design and development.

Immediately recognizable the 'dimpled' ball conjures up mental images of beautiful landscapes. (Customization with logo possible, for minimum quantity and a small premium).

### Point of interest

The dimples help the golf ball convert spin into lift by creating a thin turbulent boundary layer of air that clings to the surface, decreasing the size of the wake.

60	53	22	30	51.5	65
20	17.5	7.5	10	16.5	

Golf Ball 'Table Top'

Football Synthetic

## Football 'Synthetic'

This high quality Synthetic planter, suitable for both indoor and outdoor applications, follows many months of design and development.

Meticulous preparation of the master mold ensures high quality and uniform product. Following de-molding and preparation, 6 individual paint applications are given to obtain the design in a high glossy finished, which is then lacquer coated.

Made with 3D seam replication, highlighting the panels, and double thickness for durability.

(Customization with logo possible for minimum quantity and a small premium).

### Point of interest

Football pots are made with alternating panels of hexagons and pentagons of equal edge lengths. Once inflated a perfect sphere is the result.

# الجدران الخضراء Green Wall

## Think Green

Pixel Garden is a unique system used in constructing vertical gardens, popularly known as Green Walls. The system is not only used as decorative nature. It has multi-functional usages such as:

- Traditional Vertical Gardens
- Partition Walls
- Sound Barriers
- Fences or hoardings

Pixel Garden is setting new standards in space design, with the use of living flowers which implement freshness, aroma and colors in its surroundings.

## فكر أخضر

بكسيل جاردن "Pixel Garden" هو نظام فريد من نوعه يستخدم في إنشاء الحدائق العمودية. يعرف بصفة عامة بالجدران الخضراء "Green Walls". لا يستخدم هذا النظام فقط كزخرفة طبيعية. فهو يتمتع باستخدامات متعددة مثل:

- الحدائق العمودية التقليدية
- جدران الحواجز
- موانع للصوت
- التسييج أو أعمال الترميم

يضع نظام بكسيل جاردن "حديقة بكسل" معايير جديدة في تصميم المساحات. مع استخدام الزهور الحية التي تمنح الانتعاش. الرائحة الزكية والألوان في المناطق المحيطة.

# Pixel Garden Green walls

PG 14 & PG 09 modules

The purpose of Pixel Garden modules is to build vertical gardens. Each module consists off a container and two interchangeable pots. Modules are available in two sizes (PG 14 is 186 X 298.5 X 90 mm with 140 mm pots & PG 09 is 123 X 199 X 60 mm with 90 mm pot. The modules are made of polypropylene with UV protection upto 5 years.

# Innovations

## Thermal liners for exterior application

Experiments conducted by **Siji Greenhouse** have demonstrated that the addition of a thermal liner to plant pots can significantly effect the rootball 'temperature variation', and the rootball temperature itself.

In summary, results indicated an average drop in temperature of circa 4-5 degrees as compared to both ambient (in shade), and with pots 'not lined'.

Shows recorded temperatures (ambient - day max. & night min.), compared to ceramic planters with and without a thermal liner

Further, results indicated lower variation of temperature above and below 'nominal zero' (taken as the average temperature measured).

Shows the variation in degrees from the average (rated as nominal zero)

The advantages of providing a thermal liner are clear, both from 'temperature' reduction and 'temperature variation' reduction aspects.

The combined effect of these desirable characteristics can be clearly seen in both the root and top growth. See images

This flexible 'neoprene' liner, using 'closed pore' technology is very versatile, long lasting and can be applied to most plant containers, whether free standing (as in this brochure), or in 'built-in' exterior planters.

We recommend the inclusion of a thermal liner in outdoor planter displays to combat the prevalent harsh climatic conditions such arrangements face the region.

If required, Siji Greenhouse can supply planters with a thermal liner for a modest surcharge.

with thermal liner

without thermal liner

with thermal liner

without thermal liner

More information is available on our website: [www.sijigreenhouse.com](http://www.sijigreenhouse.com)

# PLANT INDEX
